

Learn Russian in the EU

Riga, the historic capital of Latvia, is the largest city in the Baltic republics. It has a clear majority of Russian speakers, making it an excellent centre for studying the Russian language.

Vibrant hub

Latvia joined the European Union in 2004 and since then Riga has become a vibrant hub for businesses operating between Russia and the EU.

History & Architecture

Riga has some of the finest Art Nouveau architecture anywhere in Europe, but its history goes back much further. The Vecrīga, the medieval heart of the city, is home to the Town Hall Square with the iconic House of the Blackheads.

Our school sits on a city boulevard, between the Latvian National Opera and the Central Railway Station. There are plenty of cafés, bars and restaurants in the local area and the Vecrīga is a short walk away.

The school occupies the 2nd floor (no lift) of a historical building and facilities include:

- 10 spacious classrooms
- Lounge area with vending machines
- Free WiFi
- Courtyard area for relaxing and
- Summer barbecues!
