Intensive Spanish Language

Reading Skills...

Effective reading is achieved by encouraging students to develop the necessary reading skills in a variety of texts.

Writing Skills...

Writing will be utilised to develop accuracy, cohesion, coherence and appropriacy. Writing activities may be set for homework.

Listening Skills...

A variety of listening activities and tasks will be practised to achieve accurate processing of information and differentiation of various accents.

Speaking Skills...

A range of activities to encourage communication is an integral part of our teaching to improve accuracy and fluency in authentic contexts.

Mediation Skills...

Using the international composition of the class to create the ability to facilitate intercultural communication and understanding

Linguistic Structure...

Grammatical structure for effective communication is presented by textual study to elicit meaning, use and form.

Vocabulary...

Active and passive vocabulary are key elements in learning a foreign language. Our lexical approach encourages the linking of words to meaning, avoiding problems of translation and interference.

Culture...

Our teaching materials present multiple aspects of Spanish life and culture. Learning Spain and the Spanish way of life avoids cultural misunderstanding and discrimination.

Course Content and Strategies

The overall approach in the language development classes is communicative using a task-based learning approach. This covers all aspects of Spanish language skills - speaking, listening, reading, writing and mediation as well as pronunciation, vocabulary and grammar activities.

Class dynamics include individual, pair and group work, discussions, debates, roleplays, presentations, written tasks and listening exercises. A friendly, supportive atmosphere encourages participants to share their own ideas and experience while sharing with other international students.

Participants receive weekly focused feedback thanks to both self-evaluation and a personal pedagogic session with the teachers, reviewing objectives and setting homework if necessary. Students have regular tutorials with their teachers to discuss progress and ways to maximise their autonomous / informal learning. Areas for improvement are addressed through revision sessions, progress tests and additional language and cultural workshops.
