Intensive Spanish & ICT Tools for Teaching and Learning

Intensive Spanish

Reading Skills...

Effective reading is achieved by encouraging students to develop the necessary reading skills in a variety of texts.

Writing Skills...

Writing will be utilised to develop accuracy, cohesion, coherence and appropriacy. Writing activities may be set for homework.

Listening Skills...

A variety of listening activities and tasks will be practised to achieve accurate processing of information and differentiation of various accents.

Speaking Skills...

A range of activities to encourage communication is an integral part of our teaching to improve accuracy and fluency in authentic contexts.

Mediation Skills...

Using the international composition of the class to create the ability to facilitate intercultural communication and understanding

Linguistic Structure...

Grammatical structure for effective communication is presented by textual study to elicit meaning, use and form.

Vocabulary...

Active and passive vocabulary are key elements in learning a foreign language. Our lexical approach encourages the linking of words to meaning, avoiding problems of translation and interference.

Culture...

Our teaching materials present multiple aspects of Spanish life and culture. Learning Spain and the Spanish way of life avoids cultural misunderstanding and discrimination.

ICT Skills...

A variety of digital resources and techniques will be presented to develop the knowledge, innovation and the ICT competence as an integral part of our professional and international context

Course Content and Strategies

The overall approach in the language development classes is communicative using a task based learning approach. This covers all aspects of Spanish language skills - speaking, listening, reading, writing and mediation as well as pronunciation, vocabulary and grammar activities.

Class dynamics include individual, pair and group work, discussions, debates, roleplays, microteaching, presentations, written tasks and listening exercises. A friendly, supportive atmosphere encourages participants to share their own ideas and experience while sharing with other international students.

Trainers seek to give the participants greater personal fluency, more confidence in the classroom and insights into current language teaching methodology. Teachers promote ICT effective tools to better enable the participants to use Spanish confidently and efficiently in and out classroom.
